There is a chilling thesis out there. A chilling thesis that Richard Allgire pointed out to in one of his videos with Jean Claude towards the end, if I recall correctly, very briefly. A scary thesis that Clif High probably believes and avoids to talk about,

The Great Leaving

2 3 259

RevelationPepe @RevelationPepe · Jan 4

This is sensitive content. You are advised.

He pointed out to "something binary", something that made me think about the alleged graphene and self-asembling nanobots under certain conditions, in some of the covid-19 injections. Back in the day, this was a laughable ridicule

1 1 77

RevelationPepe @RevelationPepe · Jan 4

hypothesis, obviously product of a psyop or of evil and/or crazy entities who wanted to pollute the public discourse.

Well, time to think again.

In this analysis, the "Binary activation --> Great Leaving" (BGL from now on) thesis is laid out by Allgire and Clif High. And we

1 1 63

RevelationPepe @RevelationPepe · Jan 4

proceed to offer evidence towards it, but it has already been posed by these authority figures with a proven astonishing track record.

And, before offering such more observational empirical evidence, I would like to offer a coherence snippet of evidence, in other words...

1 1 54

RevelationPepe @RevelationPepe · Jan 4

Something that would fill the gap on certain astonishing unexplained events and would make you think

"Ah shit, that makes sense..."

- Coherence Evidence:

The globalists/elites paid a huge price for employing ~13 billion injections into humanity. Before such event, conspiracy

1 1 52

RevelationPepe @RevelationPepe · Jan 4

theories and resistance movements where mostly dormant, they were very scarce and polluted, the internet was still relatively primitive, and the first world (Europe/US/China/Russia) was mostly at peace. Everything felt in equilibrium, despite life being economically inaccessible.

1 1 57

RevelationPepe @RevelationPepe · Jan 4

But then, covid happened. And then, the AI revolution happened, posing a menace to your stable income, as it threatens to take your job leaving you behind with a sad UBI at most, and hence your livelihood and that of your loved ones.

Those two events were greatly destabilizing.

1 1 56

RevelationPepe @RevelationPepe · Jan 4

And therefore, if they were to be carried out, is because the payment they would make towards the elites is worth it. The cabal, so to speak.

is worth it. The cabal, so to speak.

Especially covid kickstarted a lot of mental illnesses, mistrust,and in essence the whole The Great Awakening thing.

Why take that risk?

1 1 56

RevelationPepe @RevelationPepe · Jan 4

What payment could make it worth it? Really few people died out of covid. Was it a mistake? They make few mistakes at the technical levels...

They want control, and the best way to take it is via military action, as US already shown for 100 years, threatening to take your life.

1 1 55

RevelationPepe @RevelationPepe · Jan 4

What if the injection was the ultimate mechanism towards this end? The final way to achieve leverage, control, under the thing most of you value the most, your own life?

If they really had a way to kickstart your death, then that would explain why to make such a fuzz in 2020.

1 1 57

RevelationPepe @RevelationPepe · Jan 4

That's the coherence evidence I wanted to share. That would fill the gap. The thing they got in exchange of kickstarting The Great Awakening, was the ability to swiftly kill most of the people who were injected. That's the hypothetical explanation. What about the empirical facts?

Marburg (German pronunciation: [ˈmaːɐ̯bʊʁk] or [ˈmaʁbʊʁk]) is a university town in the German federal state (*Bundesland*) of Hesse, capital of the Marburg-Biedenkopf district (*Landkreis*). The town area spreads along the valley of the river Lahn and has a population of approximately 76,000.[3]

Having been awarded town privileges in 1222, Marburg served as capital of the landgraviate of Hessen-Marburg during periods of the 15th to 17th centuries. The University of Marburg was founded in 1527 and dominates the public life in the town to this day.

Marburg is a historic centre of the pharmaceutical industry in Germany, and there is a plant in the town (by BioNTech) to produce vaccines to tackle Covid-19.[4]

And, down below there is an extra chilling thing:

On 6 October 2024, Rwandan health minister Sabin Nsanzimana confirmed that the country had received about 700 vaccine doses to be used in trial, which will be distributed on a priority basis starting with healthcare workers, the frontline response team and individuals who were in contact with the confirmed cases.[34] These trial vaccines were delivered by the Sabin Vaccine Institute as a support by the government of US and international partners.[35] As of 14 October, more than 200 people have been vaccinated.[36]

On 31 October 2024, the Sabin Vaccine Institute dispatched 1,000 additional investigational vaccine doses for a randomized clinical trial arm within an ongoing open-label study.[37][38] As of end of October, more than 1,500 frontline workers had been vaccinated in Rwanda with the Sabin vaccine.[38]

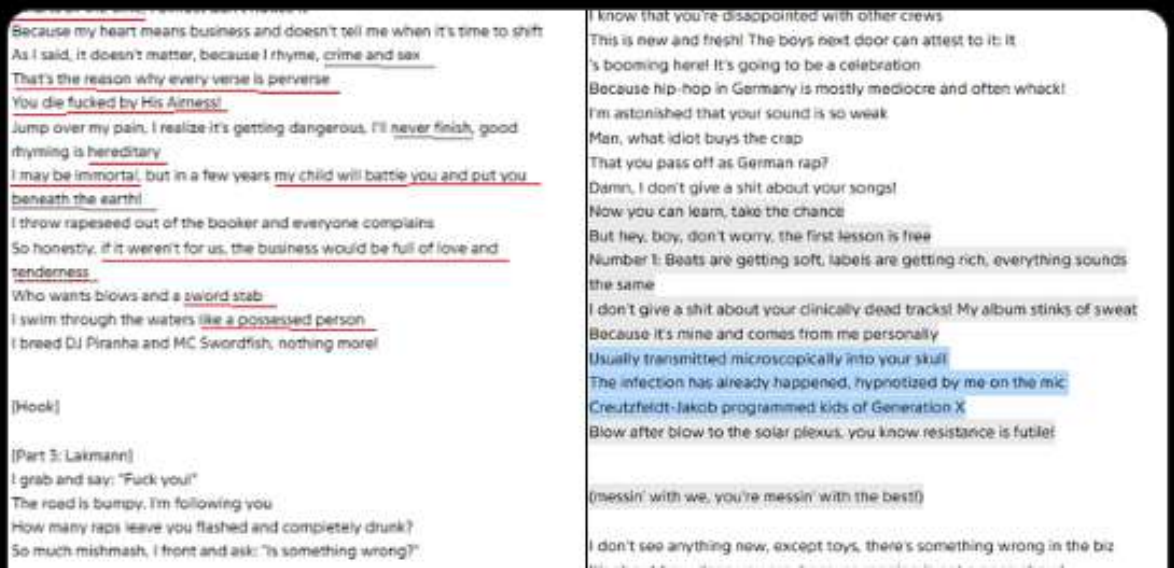
Worrying bits of the translated lyrics:



Because my heart means business and doesn't tell me when it's time to shift
As I said, it doesn't matter, because I rhyme, crime and sex
That's the reason why every verse is perverse
You die fucked by His Airness!
Jump over my pain, I realize it's getting dangerous, I'll never finish, good rhyming is hereditary
I may be immortal, but in a few years my child will battle you and put you beneath the earth!
I throw rapeseed out of the booker and everyone complains
So honestly, if it weren't for us, the business would be full of love and tenderness
Who wants blows and a sword stab
I swim through the waters like a possessed person
I breed DJ Piranha and MC Swordfish, nothing more!

[Hook]

[Part 3: Lakmann]
I grab and say: "Fuck you!"
The road is bumpy, I'm following you
How many raps leave you flashed and completely drunk?
So much mishmash, I front and ask: "Is something wrong?"

I know that you're disappointed with other crews
This is new and fresh! The boys next door can attest to it: It
's booming here! It's going to be a celebration
Because hip-hop in Germany is mostly mediocre and often whack!
I'm astonished that your sound is so weak
Man, what idiot buys the crap
That you pass off as German rap?
Damn, I don't give a shit about your songs!
Now you can learn, take the chance
But hey, boy, don't worry, the first lesson is free
Number 1: Beats are getting soft, labels are getting rich, everything sounds the same
I don't give a shit about your clinically dead tracks! My album stinks of sweat
Because it's mine and comes from me personally
Usually transmitted microscopically into your skull
The infection has already happened, hypnotized by me on the mic
Creutzfeldt-Jakob programmed kids of Generation X
Blow after blow to the solar plexus, you know resistance is futile!

(messin' with we, you're messin' with the best!)

I don't see anything new, except toys, there's something wrong in the biz

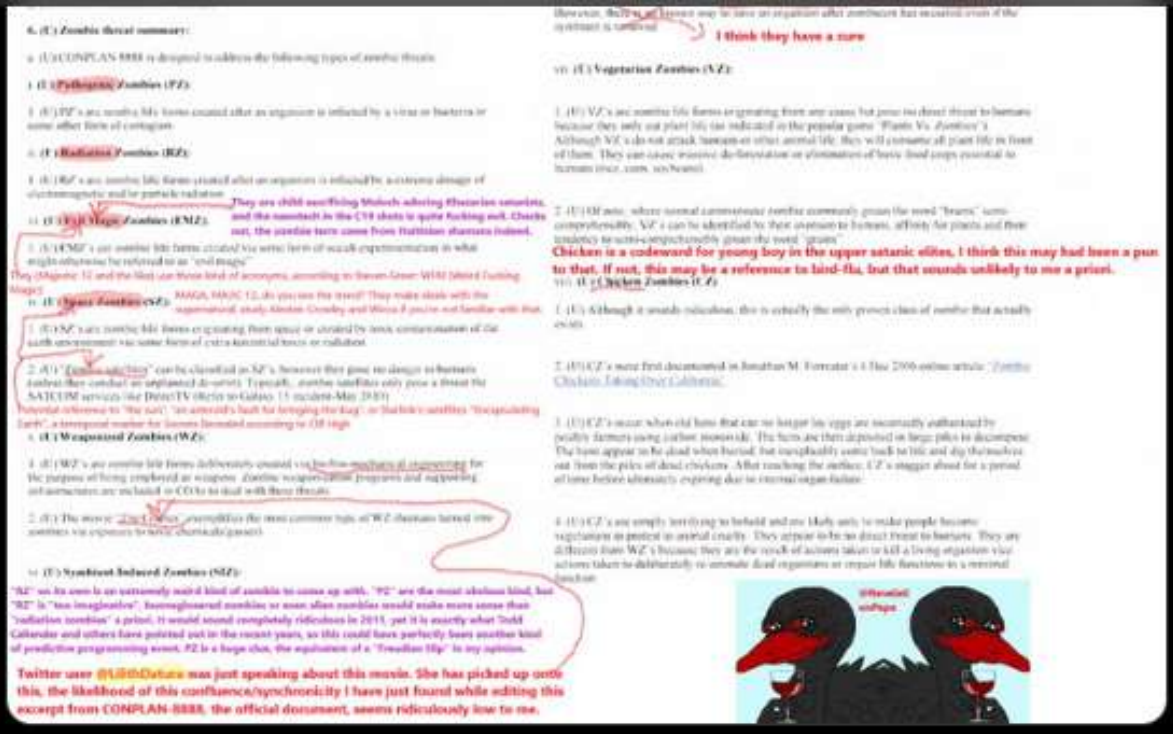
@LilithDatura lower left corner, that's your movie!

I just saw it. Your synchronicity realization extended to my analysis from a completely independent angle, literally now. Very interesting.

Taking into account the lipid nanoparticles encapsulating the deadly Marburg-combo virus thesis according to Todd Callender, which would be susceptible to rupture via 3 EM ~10 GHz pulses within 1 minute + Clif's "sun disease" reference from the '97 data, contemporaneous to Secrets Revealed, + The Economist 2025 cover month of November, where we can see a CME, and some of the stupid reports from the DailyMail, our current theory is that they will blame some kind of solar Carrington-level event around Oct 2025- May 2026 for the beginning of a zombie epidemic, or maybe some asteroid... They will try to save their public image until the very end by blaming the sun, with a view towards the upcoming NWO, but by then almost everybody on the street will know it was the C19 vaccine. That would create the great culling, turning victims into actual zombies.
I think they have a cure
Chicken is a codeword for young boy in the upper satanic elites, I think this may had been a pun to that. If not, this may be a reference to bird-flu, but that sounds unlikely to me a priori.



I think they have a cure
They are child sacrificing Moloch adoring Rhesarian satanists, and the nanotech in the C19 shots is quite fucking evil. Checks out, the zombie term came from Haitian shamans indeed.

Twitter user @LilithDeluxe was just speaking about this movie. She has picked up onto this, the likelihood of this confluence/synchronicity I have just found while editing this excerpt from CONPLAN-8888, the official document, seems ridiculously low to me.

There is a chilling thesis out there. A chilling thesis that Richard Allgire pointed out to in one of his videos with Jean Claude towards the end, if I recall correctly, very briefly. A scary thesis that Clif High probably believes and avoids to talk about,

hypothesis, obviously product of a psyop or of evil and/or crazy entities who wanted to pollute the public discourse.

Well, time to think again.

In this analysis, the "Binary activation --> Great Leaving" (BGL from now on) thesis is laid out by Allgire and Clif High. And we

RevelationPepe

proceed to offer evidence towards it, but it has already been posed by these authority figures with a proven astonishing track record.

And, before offering such more observational empirical evidence, I would like to offer a coherence snippet of evidence, in other words...
RevelationPepe
@RevelationPepe

Jan 4
Something that would fill the gap on certain astonishing unexplained events and would make you think

"Ah shit, that makes sense..."

- Coherence Evidence:

But then, covid happened. And then, the AI revolution happened, posing a menace to your stable income, as it threatens to take your job leaving you behind with a sad UBI at most, and hence your livelihood and that of your loved ones.

Those two events were greatly destabilizing.
RevelationPepe
@RevelationPepe
·
Jan 4
And therefore, if they were to be carried out, is because the payment they would make towards the elites is worth it. The cabal, so to speak.

Especially covid kickstarted a lot of mental illnesses, mistrust,and in essence the whole The Great Awakening thing.

Why take that risk?
RevelationPepe
@RevelationPepe
·

Jan 4
What payment could make it worth it? Really few people died out of covid. Was it a mistake? They make few mistakes at the technical levels...

They want control, and the best way to take it is via military action, as US already shown for 100 years, threatening to take your life.
RevelationPepe
@RevelationPepe

Jan 4
What if the injection was the ultimate mechanism towards this end? The final way to achieve leverage, control, under the thing most of you value the most, your own life?

If they really had a way to kickstart your death, then that would explain why to make such a fuzz in 2020.
RevelationPepe
@RevelationPepe
·
Jan 4
That's the coherence evidence I wanted to share. That would fill the gap. The thing they got in exchange of kickstarting The Great Awakening, was the ability to swiftly kill most of the people who were injected. That's the hypothetical explanation. What about the empirical facts?

Marburg (German pronunciation: [ˈmaːɐ̯bʊʁk] or [ˈmaʁbʊʁk]) is a university town in the German federal state (*Bundesland*) of Hesse, capital of the Marburg-Biedenkopf district (*Landkreis*). The town area spreads along the valley of the river Lahn and has a population of approximately 76,000.[3]

Having been awarded town privileges in 1222, Marburg served as capital of the landgraviate of Hessen-Marburg during periods of the 15th to 17th centuries. The University of Marburg was founded in 1527 and dominates the public life in the town to this day.

Marburg is a historic centre of the pharmaceutical industry in Germany, and there is a plant in the town (by BioNTech) to produce vaccines to tackle Covid-19.[4]

> On 31 October 2024, the Sabin Vaccine Institute dispatched 1,000 additional investigational vaccine doses for a randomized clinical trial arm within an ongoing open-label study.[37][38] As of end of October, more than 1,500 frontline workers had been vaccinated in Rwanda with the Sabin vaccine.[38]

I have gathered more facts about this Zombie theory. They're not as interesting as the previous ones, yet I think they may be interesting.

disease (CWD) is just another example of the Mad cows disease, which in humans has another name (why so many names lol) but is basically the same thing: Creutzfeldt-Jakob disease (CJD or vCJD for a variant)

A similar disease is Kuru, we'll get into that. They're caused by prions

Here is a table I found depicting those. I invite you to look up on your own brief descriptions of these diseases on your most trusted sources, there is no controversy here (yet!)

Classification	Subtypes	Comments
Sporadic CJD		>90% of VJD cases
Genetic CJD		PRNP mutation
Acquired CJD	Kuru	Due to cannibalism (Africa)
	Iatrogenic	Due to infected surgical instruments and human-derived growth hormones
	Variant	Linked to UK outbreak of bovine spongiform encephalopathy in 1980-1990s.

What "Zombie" by The Cranberries is Really About
LYRISTORIC
"This song is our cry against man's inhumanity to man, man's inhumanity to child, and war, and babies dying, and Belfast, and Bosnia, and Rwanda..."
9:48 / 13:54

- She died of an apparent overdose in the bathtub, when she was 46 (London, 2018).

Now we go with this short video https://youtube.com/watch?v=laShCCy_Hh8

It begins with she wearing a red dress... Probably just a coincidence.

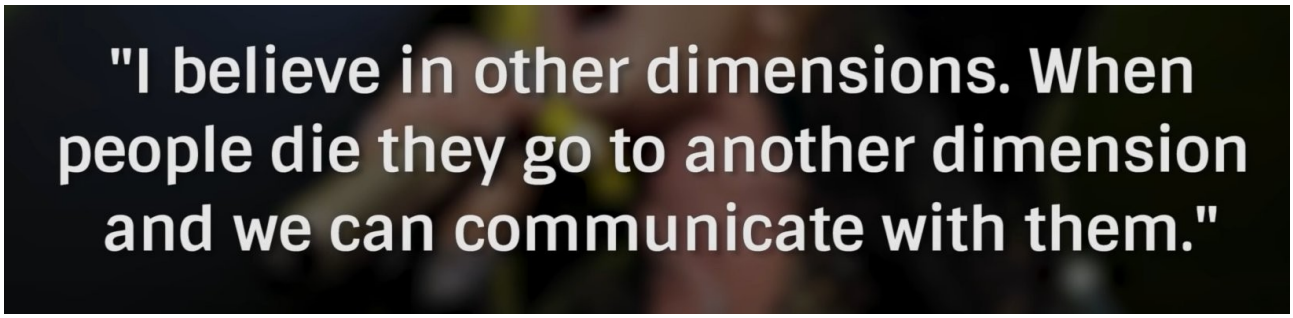
- "The demons that linger in her life" maybe she engaged in some satanic ceremony back in the day... :(
- "I believe in (...)" And she says she REGULARLY spoke with her father in dreams (and I believe her, she was



aware of the Woo Woo, and her band probably used it to make some kind of deal for the fame, just like others in the club of 27 made I think, but I lack evidence for this claim tbh)

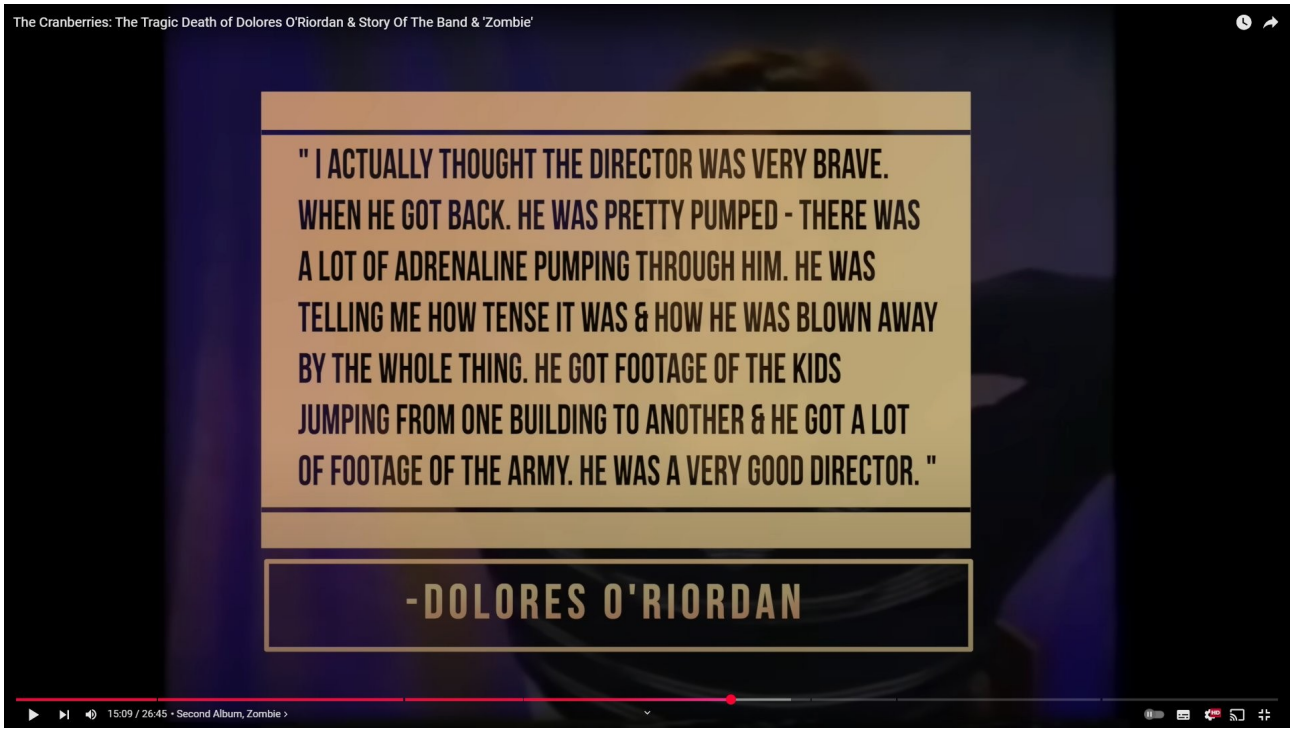
I found the following screenshots in an extremely long video you don't want to see, there's nothing new in there it has not been said yet. This is the video https://youtube.com/watch?v=HeF7aYQinRY

My point is simple - "Zombie" was such a hit thanks to Samuel Bayer and some ELohim favours.



The Cranberries: The Tragic Death of Dolores O'Riordan & Story Of The Band & 'Zombie'
" I ACTUALLY THOUGHT THE DIRECTOR WAS VERY BRAVE. WHEN HE GOT BACK. HE WAS PRETTY PUMPED - THERE WAS A LOT OF ADRENALINE PUMPING THROUGH HIM. HE WAS TELLING ME HOW TENSE IT WAS & HOW HE WAS BLOWN AWAY BY THE WHOLE THING. HE GOT FOOTAGE OF THE KIDS JUMPING FROM ONE BUILDING TO ANOTHER & HE GOT A LOT OF FOOTAGE OF THE ARMY. HE WAS A VERY GOOD DIRECTOR. "

Worrying bits of the translated lyrics:

[Hook:]
(messin'... messin... messin... messin.. messin with me, you're messin' with the best!)
(messin'... messin... messin... messin.. messin with me, you're messin' with the best!)
(messin'... messin... messin... messin.. messin with me, you're messin' with the best!)
(messin'... messin... messin... messin.. messin with me, you're messin' with the best!)

[Part 2: Lakmann]
(Aha.) My raps are of course end-to-end and completely offensive!
You rhyme, but you don't think! Anyone who knows me says: I storm, but I don't slow
you down I'll finally spoil it! I have such an urge to talk, who's got the curtain, sportsman?
I thank you very much, my right hand doesn't hurt
Finally, my handwriting strikes first
I forget fairness, because who is honest
It hurts all the time, I almost don't notice it
Because my heart means business and doesn't tell me when it's time to shift
As I said, it doesn't matter, because I rhyme, crime and sex
That's the reason why every verse is perverse
You die fucked by His Airness!
Jump over my pain, I realize it's getting dangerous, I'll never finish, good rhyming is hereditary
I may be immortal, but in a few years my child will battle you and put you beneath the earth!
I throw rapeseed out of the booker and everyone complains
So honestly, if it weren't for us, the business would be full of love and tenderness
Who wants blows and a sword stab
I swim through the waters like a possessed person
I breed DJ Piranha and MC Swordfish, nothing more!

[Hook]

[Part 3: Lakmann]
I grab and say: "Fuck you!"
The road is bumpy. I'm following you
How many raps leave you flashed and completely drunk?
So much mishmash, I front and ask: "Is something wrong?"
I come with the clan, hit with raps like lightning
Until I bomb like poison gas. My rap licked as if my tongue was on your clit
It's already bitter, I rap like a wanker two of the Witten knights Lak Onanonand Mr. Flipstar. Show me the compulsory subject where everyone takes part
I say: "Fuck you, you wankers!" Because I'm taking the safety off all my weapons!
I've got nothing to smoke because you all only do shit
My dad wakes me up around midday
The day is long, I keep myself fit like sit-ups

[Part 4: Flipstar]
You see it shining brightly in the dark, like the constellation Orion
Far, far to the west of you lies the secret laboratory
Of the guys from Creutzfeld Jakob, Dike D and Onanon
The latest styles are being born, and if it doesn't work out, then we'll just start all over again
I don't give a shit about your norms, I'm fully focused on myself
And bring you complicated shit that kicks, I'm not interested in anything else
I am me and I'll stay that way, so listen carefully and write this down
Because Flipstar rips the mic and sends you greetings over the airwaves!

[Hook]
(messin' with me, you're messin' with the best!)

[Part 1: Flipstar]
The time is ripe for the new shit!
Goes around like joints in my circle of friends
Creutzfeld, Jakob, finally skills and styles again
Two iron mics and needles made of diamond on black plastic
Unique, bombastic, battle me, I'll freshen you up!
Write that down! A masterpiece of German rap is rotating here
I know that you're disappointed with other crews
This is new and fresh! The boys next door can attest to it: It
's booming here! It's going to be a celebration
Because hip-hop in Germany is mostly mediocre and often whack!
I'm astonished that your sound is so weak
Man, what idiot buys the crap
That you pass off as German rap?
Damn, I don't give a shit about your songs!
Now you can learn, take the chance
But hey, boy, don't worry, the first lesson is free
Number 1: Beats are getting soft, labels are getting rich, everything sounds the same
I don't give a shit about your clinically dead tracks! My album stinks of sweat

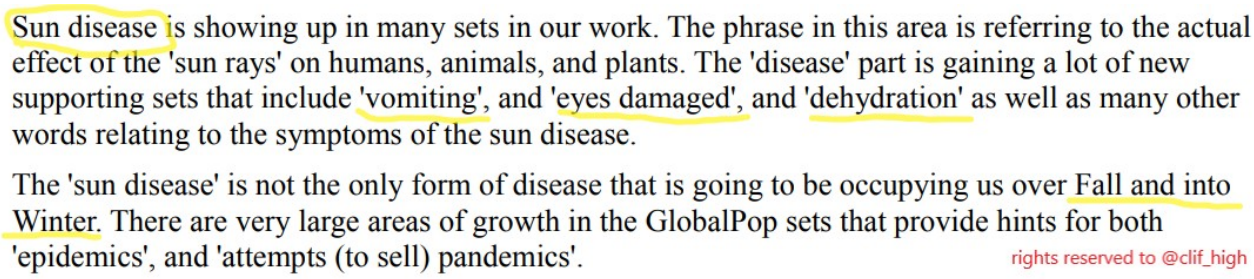
Using https://x.com/RevelationPepe/status/1884448753320329476 we can get @clif_high
's ALTA report from Sep 2016. In there, when looking for "sun disease", which was already barely discussed way above, we find this fragment with three suspicious symptoms of Marburg (mostly the eye thing and vomiting)



Sun disease is showing up in many sets in our work. The phrase in this area is referring to the actual effect of the 'sun rays' on humans, animals, and plants. The 'disease' part is gaining a lot of new supporting sets that include 'vomiting', and 'eyes damaged', and 'dehydration' as well as many other words relating to the symptoms of the sun disease.

The 'sun disease' is not the only form of disease that is going to be occupying us over Fall and into Winter. There are very large areas of growth in the GlobalPop sets that provide hints for both 'epidemics', and 'attempts (to sell) pandemics'.

ALTA May 2016 and March 2016

SpaceGoatFarts

The Terra entity forecast 'ramping up' in 'earthquakes', and 'land shifts', and 'ocean changes' are all extensively cross linked over to the SpaceGoatFarts entity where we have 'solar (dynamic) activity' as the terminating sub set. All of these cross links are minor compared to the massive cross connection between 'sun disease', and GlobalPop entity. These data sets are pointing to 'significant impacts' on humanity directly attributable to 'solar radiation', even though the 'radiation' will be 'unseen', 'unknown', and 'undetected (at the time)'. Without regard to its initial descriptors, the 'sub disease impacts' on humans will be 'reported' even in the mainstream propaganda press shortly after the 'first (intense) burst'.

The data sets for the 'sun disease' are also forecasting that further 'erratic solar weather' will be causing 'challenges' here on earth (and the other planets) as the 'terran weather' shifts into 'visible wonkyness' with 'snows' in 'summer', and 'heat waves' at the 'poles', and other demonstrations of 'never before reported strange weather phenomena'. These 'weather phenomena' will include 'more erratic ocean currents' and increasing 'heat waves' leading to 'large fish population deaths' in 'near shore waters' while also producing 'blinding fogs' in the 'mid day sun' in areas outside of view of land. These 'mid day evaporation fogs' are also going to show up on satellite photos and cause some considerable discussion.

Many other new sets are referring to 'odd' and 'exceptional' and 'out of place/out of time(?)' phenomenon to be 'encountered' over 2016 and 'reported upon'. Much of the 'reports' are to be 'dismissed' as there will be 'piling on effect', but the data is forecasting that some of the 'initial reports' will be 'credible' and will speak to truly 'bizarre events' here on earth.

Some of the 'bizarre events' may be better understood as 'trailing events' from the 'meddling' at the 'energetic level' of the 'CERN LHC'. These sets are suggesting that 'ephemeral effects' may be 'created' here on earth, but 'outside' the 'confines' of the 'LHC magnetic fields' such that 'self-directed field forces' will be 'established' and 'cause panics' where the 'effects appear'. PLEASE NOTE: no further details will be offered on the 'effects' produced by these fields as it is one of those 'self fulfilling' things to be avoided (according to the data accretion patterns). Basically we will all recognize it later, so enough said at this point.

The SpaceGoatFarts entity is also suggesting that 'real (sort of) space farts' will 'descend over earth'. These are actually sets that are describing 'new smells' that will be 'accompanying' the 'evaporation fogs', at least temporally. These 'smells' are described as being 'cloying', and 'blanketing whole regions',

Our Next World - June, 2016
All rights reserved

as well as affecting even 'pilots' (mostly small airplanes). The data sets are describing something that will be a 'precursor' to 'larger events' later in this decade, but not of immediate concern.

The SpaceGoatFarts entity also contains growth in areas with extensive cross links over to the Markets entity as well as the GlobalPop entity where the area of 'space exploration' and 'space exploitation' are described as 'taking up' some 'new materials' into 'space' that will 'react unexpectedly' and produce the first 'space industrial crisis' of this century. Somehow this 'space industrial crisis' is indicated to be of great concern to certain latitudes here on earth. No detail sets to speak of related to the source of the 'crisis', and the interpretation is that the cause and effects may be some months off, or may be 'withheld' for some number of months such that the news comes out in early 2017.

There are many new sets growing in supporting positions for the 'sun disease', 'solar health' sub set. These sets are specifically focused on 'internal changes (externally visible)' within the 'solar flow'. These sets do have internal cross links over to the terminating sets of the 'disease (mental included) of humans (that is) sun (change) induced", however the new growth is in 'sun disease', 'solar flow' sub sets. These new aspect/attribute sets are showing a very 'tight relationship' between the 'solar (surface) flow' (both in direction, and volume)' and 'climate health' here on earth.

There are continuing growth and new patterns for both the UFO large set, and the smaller sub set of 'USO' (underseas objects of unknown nature). These latter are showing as being the preoccupation of the 'global (ufo watching) population' as the 'numbers of reported (and video recorded) USO sightings' are forecast as escalating dramatically.

Yet more data showing up around CERN and the LHC and 'earthquakes'. The growth in the 'chinese dispute/complaint' sub set continues to gain new aspect/attribute sets for the 'chinese authorities' to 'publicly demand LHC cease' until 'studies' can determine if the machine has been 'causing massive (yet to occur) earthquakes in China'. These data sets are still dominated by longer term values but the shift into shorter term is occurring now with the implication being that the events are merely months away.

I've been digging up more on J. Austen's death https://youtube.com/shorts/24EiytPgt4Y

It is interesting that she was not know until long after her death, in 1870?

The game's campaign follows up the story of *Black Ops* and takes place in the late 1980s and in 2025. In the 1980s, the player switches control between Alex Mason and Frank Woods, the former being one of the protagonists from *Black Ops*, while in 2025,

In 2025, a team of CIA and CDC operatives investigate a nuclear testing site in Nevada known as "Nuketown", where they are attacked by zombies. At the same time, Dr. Edward Richtofen seizes control of the zombies by entering the Aether from Griffin Station on the Moon. However, Dr. Ludvig Maxis joins with his daughter Samantha and Richtofen's former allies: "Tank" Dempsey, Nikolai Belinski, and Takeo Masaki, to thwart him. To end this, Maxis launches three massive nuclear missiles filled with Element 115, the element responsible for the reanimation of dead cells, at the Earth, destroying its atmosphere.[b] One missile completely destroys Nuketown and all present, except for one individual, Marlton Johnson, who escapes after hiding out in the site's bunker.

Ten years later, Earth has been reduced to a crumbling, hellish wasteland overrun by zombies. In this new world, four survivors - Samuel Stuhlinger, Abigail "Misty" Briarton, Marlton, and Russman - have banded together to survive in Washington with the help of a bus driven by a robotic driver. The four are contacted by both Richtofen and Maxis, who is now a digital artificial intelligence, for aid against each other. Both former scientists request the four to assist them in powering up a tower within the area to work in their favor. Once done, regardless of the path they choose, they are teleported by Richtofen to a crumbling skyline in Shanghai, China. The four learn of The Flesh, a cannibalistic cult that chooses to eat zombie meat, as well as the beginnings of a new airborne pandemic of Element 115. Stuhlinger is threatened by Richtofen, who knows of his past as a member of The Flesh, which allows only him to hear Richtofen and not the others. At the site, Maxis and Richtofen once again instruct the four to power up a second tower.

Zombies

Treyarch confirmed that the Zombies mode would return for *Black Ops II* with new game modes. This is the third *Call of Duty* game to feature a Zombies mode, following *Call of Duty: World at War* and *Call of Duty: Black Ops*, and the first to have game modes other than the traditional Survival mode. Treyarch also confirmed that Zombies would run on the game's multiplayer engine, allowing for a deeper community experience, along with new features. A new, 8 player co-op game called "Grief" is also supported, featuring 2 teams of 4 players competing to survive, unlike the previous games which only supported 4 player online co-op. As with the previous installments, each Zombies map contains "Easter eggs" side quests, which is used to progress the story. Another new mode, "Turned", is introduced with several downloadable content maps, in which one player attempts to survive three player-controlled zombies who must turn the other player into a zombie.

E. Riordan's 25 July 2018 RV session https://x.com/clarkzkent/status/1771100216671744199 depicts a lot of the elements of the activation of the 3 EM pulses theory above, rupturing the lipid nanoparticles so to release the Marburg deadly combo.

Back then there was no C19 even, he is really talented.

https://rumble.com/v3c3ih6-remote-viewing-q-anon-session-6.html

@LilithDatura
lower left corner, that's your movie!

I just saw it. Your synchronicity realization extended to my analysis from a completely independent angle, literally now. Very interesting.

Taking into account the lipid nanoparticles encapsulating the deadly Marburg-combo virus thesis according to Todd Callender, which would be susceptible to rupture via 3 EM ~18 GHz pulses within 1 minute + Clif's "sun disease" reference from the '97 data, contemporaneous to Secrets Revealed, + The Economist 2025 cover month of November, where we can see a CME, and some of the stupid reports from the DailyMail, our current theory is that they will blame some kind of solar Carrington-level event around Oct 2025- May 2026 for the beginning of a zombie epidemic, or maybe some asteroid... They will try to save their public image until the very end by blaming the sun, with a view towards the upcoming NWO, but by then almost everybody on the street will know it was the C19 vaccine. That would create the great culling, turning victims into actual zombies.

(U) ZOMBIE THREAT SUMMARY

6. (U) Zombie threat summary:

a. (U) CONPLAN 8888 is designed to address the following types of zombie threats:

i. **(U) Pathogenic Zombies (PZ):**

1. (U) PZ's are zombie life forms created after an organism is infected by a virus or bacteria or some other form of contagion

ii. **(U) Radiation Zombies (RZ):**

1. (U) RZ's are zombie life forms created after an organism is infected by a extreme dosage of electromagnetic and/or particle radiation

iii. **(U) Evil Magic Zombies (EMZ):**

They are child-sacrificing Moloch-adoring Khazarian satanists, and the nanotech in the C19 shots is quite fucking evil. Checks out, the zombie term came from Haitinian shamans indeed.

1. (U) EMZ's are zombie life forms created via some form of occult experimentation in what might otherwise be referred to as "evil magic"

They (Majestic 12 and the like) use those kind of acronyms, according to Steven Greer: WFM (Weird Fucking Magic)

iv. **(U) Space Zombies (SZ):**

MAGA, MAJIC 12, do you see the trend? They make deals with the supernatural, study Alesteir Crowley and Wicca if you're not familiar with that.

1. (U) SZ's are zombie life forms originating from space or created by toxic contamination of the earth environment via some form of extra-terrestrial toxin or radiation

2. (U) "Zombie satellites" can be classified as SZ's, however they pose no danger to humans (unless they conduct an unplanned de-orbit). Typically, zombie satellites only pose a threat the SATCOM services like DirectTV (Refer to Galaxy 15 incident-May 2010)

Potential reference to "the sun", "an asteroid's fault for bringing the bug", or Starlink's satellites "Encapsulating Earth", a tenmporal marker for Secrets Revealed according to Clif High

v. **(U) Weaponized Zombies (WZ):**

1. (U) WZ's are zombie life forms deliberately created via bio/bio-mechanical engineering for the purpose of being employed as weapons. Zombie weaponization programs and supporting infrastructures are included in COAs to deal with these threats.

2. (U) The movie "The Crazies" exemplifies the most common type of WZ (humans turned into zombies via exposure to toxic chemicals/gasses)

vi. **(U) Symbiant-Induced Zombies (SIZ):**

1. (U) SIZ's are zombie life forms originating from the introduction of a symbiant life form into an otherwise healthy host. Although the symptoms of symbiant zombieism is similar in most regards to pathogenic zombeism, the symbiant does not kill the host organism quickly, or at all. However, there is no known way to save an organism after zombiesm has occurred-even if the symbiant is removed.

I think they have a cure

vii. **(U) Vegetarian Zombies (VZ):**

1. (U) VZ's are zombie life forms originating from any cause but pose no direct threat to humans because they only eat plant life (as indicated in the popular game "Plants Vs. Zombies"). Although VZ's do not attack humans or other animal life, they will consume all plant life in front of them. They can cause massive de-forestation or elimination of basic food crops essential to humans (rice, corn, soybeans).

2. (U) Of note, where normal carniverouse zombie commonly groan the word "brains" semi-comprehensibly, VZ's can be identified by their aversion to humans, affinity for plants and their tendency to semi-comprehensibly groan the word "grains".

Chicken is a codeword for young boy in the upper satanic elites, I think this may had been a pun to that. If not, this may be a reference to bird-flu, but that sounds unlikely to me a priori.

viii. **(U) Chicken Zombies (CZ)**

1. (U) Although it sounds ridiculous, this is actually the only proven class of zombie that actually exists.

2. (U) CZ's were first documented in Jonathan M. Forrester's 4 Dec 2006 online article "Zombie Chickens Taking Over California".

3. (U) CZ's occur when old hens that can no longer lay eggs are incorrectly euthanized by poultry farmers using carbon monoxide. The hens are then deposited in large piles to decompose. The hens appear to be dead when buried, but inexplicably come back to life and dig themselves out from the piles of dead chickens. After reaching the surface, CZ's stagger about for a period of time before ultimately expiring due to internal organ failure.

4. (U) CZ's are simply terrifying to behold and are likely only to make people become vegetarians in protest to animal cruelty. They appear to be no direct threat to humans. They are different from WZ's because they are the result of actions taken to kill a living organism vice actions taken to deliberately re-animate dead organisms or impair life functions to a minimal function.

"RZ" on its own is an extremely weird kind of zombie to come up with. "PZ" are the most obvious kind, but "RZ" is "too imaginative", buonegineered zombies or even alien zombies would make more sense than "radiation zombies" a priori. It would sound completely ridiculous in 2011, yet it is exactly what Todd Callender and others have pointed out in the recent years, so this could have perfectly been another kind of predictive programming event. PZ is a huge clue, the equivalent of a "Freudian Slip" in my opinion.

Twitter user @LilithDatura was just speaking about this movie. She has picked up onto this, the likelihood of this confluence/synchronicity I have just found while editing this excerpt from CONPLAN-8888, the official document, seems ridiculously low to me.
